

## Mein Klimatag: Klimaweg:

## MEIN KLIMA TAG:

The Klimaweg (climate path) in Lucerne wants to sensitize its visitors to the climate change, show new perspectives and describe future risks, challenges and possibilities. The climate path urges its visitors from Lucerne and abroad to ask themselves what **they** can do: how can we counter climate change and deal with the consequences?

The climate path is divided in three sections, which can be visited separately or as a whole:

- Part 1: awareness raising for families, youths and children;
- Part 2: contemplation for visitors who want to use a meditative-reflective approach;
- Part 3: approaches for everybody, recommendations for changing one's own behavior-patterns.
